

K-Love serves a great need in my community. It allows broadcasting that is safe for my family to listen to. If K-Love were replaced by an LPFM with another type of programming, I would be afraid to allow my children to listen, it would be devastating. K-Love provides a great alternative to other stations that talk about "R" rated subjects, use vulgar language and offer advertising to business that are not promoting family friendly services. The programming K-Love provides is clean and encourages great morals and values. K-Love is an encouragement to our community. Thank you.
